

FOLLOW-UP NOTICE

September 26, 2018

Attention: All Dealer Principals

This Is A Follow-Up Notice To Advise That The Remedy Is Now Available.

Kia Motors America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign on the following vehicles:

- **All 2011-2012 MY Kia Sedona vehicles produced from March 3, 2010 thru August 14, 2012;**
- **All 2010-2013 MY Kia Forte vehicles produced from February 24, 2009 thru August 31, 2012;**
- **All 2010-2013 MY Kia Forte Koup vehicles produced from June 5, 2009 thru August 31, 2012;**
- **All 2011-2013 MY Kia Optima vehicles produced from August 12, 2010 thru August 31, 2012;**
- **All 2011-2012 MY Kia Optima Hybrid vehicles produced from February 15, 2011 thru August 31, 2012.**

The airbag control unit ("ACU") detects crash severity and commands deployment of the advanced airbags and seatbelt pretensioners when necessary. The ACU in these vehicles contain a certain application-specific integrated circuit ("ASIC") that may be susceptible to electrical overstress ("EOS") during certain frontal crash events. If the ASIC becomes damaged, the frontal airbags and seatbelt pretensioners may not deploy in certain frontal crashes where deployment may be necessary, thereby increasing the risk of injury.

Your Service Manager was sent a copy of the follow-up owner notification letter and a Q&A guide for recall questions both of which describe the issue.

Kia will mail a follow-up notice to the affected vehicle owners beginning on **September 28, 2018, notifying them that the remedy is now available and requesting they contact their authorized Kia dealer to schedule the ACU repair.**

NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.
